Side Crash Not Rated
Front Seat Rear Seat Not Rated
Based on the risk of injury in a side impact.

Rollover Not Rated

This vehicle is equipped with a front bumper that has been tested at an impact speed of * mph and a rear bumper that has been tested at an impact speed of * mph and has sustained no damage to the vehicle's body and minimal damage to the bumper and attachment hardware. Minimal damage to the bumpers means damage that can be repaired with the use of common repair materials and without replacing any parts. The stronger the bumper, the less likely the car will require repair after a low-speed collision. However, this vehicle is equipped with a bumper system, that, under Federal bumper standard test conditions and procedures, can withstand a frontal impact speed of 25 mph and a rear impact speed of 25 mph with no more damage than allowed by the Federal bumper standard. *Not tested to specifics of New York state law.
